6. The profit derived from the Marketing Bonus can be withdrawn if the following conditions are fulfilled:
 - 6.1. The minimum amount for withdrawal is \$10; the maximum amount equal to the amount provided by the bonus. To unlock the withdrawable amount, you must have traded a certain volume, where \$2 = 1 lot e.g. to withdraw \$10 you must have traded at least 5 lots.
 - 6.2. The profit over Marketing Bonus can be withdrawn only after all buy or sell trades are completed. Upon withdrawal, a proportion of the bonus funds will be cancelled. The proportion is calculated based on the following:

$$C = (X/Y) * (\text{the amount of Marketing bonus})$$

Where:

C = cancelled amount; X = the amount that is requested for withdrawal; Y = the current available balance in the account after the Marketing bonus and other types of bonuses, if available, have been deducted.

For example, you claimed the Marketing bonus and made got 50\$ on your trading account. Let's say you make some trades and closed 6 lots (means \$12 as a profit) and you want it to withdraw. Let's use the formula to see how much money will be cancelled from your account:

$$X = \$12$$

$$Y = 62 - 50 = \$12$$

$$C = (12/12) * 50 = 50$$

So \$50 will be cancelled from your account after you make your withdrawal.
